

Dear Parents and Guardians of Tyl and MHS Students,

To avoid large groups of students congregating together tomorrow, we would like to suggest that you adhere to the schedule below. This schedule is a guideline; students will be allowed access to the school at other times, but please be patient if the groups are too large to allow all students access to the school at the same time. Families who need to pick up medication should come between 9-1 regardless of their last name. At all times, families and students are asked to adhere to current social distancing guidelines.

9-10	Students whose last names begin with A-E
10-11	Students whose last names begin with F-J
11-12	Students whose last names begin with K-M
12-1	Students whose last names begin with N-Q
1-2	Students whose last names begin with R-T
2-3	Students whose last names begin with U-Z

We will be prepared to offer students additional dates when they can access their lockers as necessary since current communication from the state and CDC indicates that our school closure may be longer than several weeks.

Thank you for patience as we communicate details to you. We are working very hard to refine our responses to the guidelines we receive from the state which are changing very rapidly.

Best regards,

Laurie Pallin

Superintendent
