

Superintendent's Update – October 1, 2021 Montville Public Schools

Challenging our Students to Do Something Nice!

One challenge which our administrators and staff have faced this month is students' participation in highly inappropriate TikTok challenges. We have seen acts of vandalism and theft in our schools over the past several weeks and have increased our monitoring of hallways and bathrooms in response.

There will be zero tolerance for any student who participates in the latest TikTok challenge to "slap a teacher." We will press criminal charges against any student who videotapes or participates in this challenge.

We would like to offer Montville students an alternative challenge – **We challenge you to do something nice for someone in our community each day in the month of October.**
